

Machines MANUFACTURER

Machines manufacturer

Precision manufacturing for Plastic Scarp Grinders, Belt type Conveyors, Hydraulic Car Parking lifts and Hydraulic Power Packs.

About Mechnocraft

Mechnocraft is one of the top and trusted manufacturers of high-precision machines. We are known for offering innovative machinery solutions to a wide range of industries all across the globe. With a powerful team of tech experts and experienced machinery professionals, we have become a specialized company in manufacturing top-quality products that offer uninterrupted performance and enhance the productivity of businesses.

Our Mission

At Mechnocraft, we aim to deliver the best experiences to our clients. Our offerings are not just restricted to the products, but we also offer post-sales support to ensure seamless integration and smooth operation of our machines. By putting special emphasis on material quality and performance, our team is on its mission to serve more happy clients and contribute to the success of more businesses.

Looking For The Best Manufacturer of High Precision Machines?

No. 1 manufacturer of hydraulic power packs, hydraulic car parking lifts, belt type conveyors, and plastic scarp grinders. No. 1 in experience and technical expertise.

OUR PRODUCTS

Plastic Scrap Grinder Machine

Key Features:

- **Low Energy Consumption:** Our machine is highly energy efficient.
- **High Mechanical Strength:** It is built to last long and offer smooth operation.
- **Speed Control Options:** This includes speed control features for adjustable operation.
- **Neat Design & Finish:** Our machine has a smart design and smooth finish.
- **User Friendly:** Operating procedures for this machine are very simple.
- **High Grinding Performance:** It has very strong grinding power.
- **Compatibility:** The machine is compatible with different kinds of plastic materials.
- **Anti-Corrosion Features:** Our machine has corrosion-preventing properties.
- **Prevents Overheating:** It comes with in-built cooling systems to prevent overheating.
- **Custom Setting:** It has customizable settings for different particle sizes and grinding intensities.

Key Features:

- The machine makes production processes highly cost-efficient for businesses that work around the plastic industry. It cuts down the cost of raw materials by providing a speedy plastic recycling solution.
- It contributes to a sustainable environment by allowing production businesses to turn plastic waste into valuable resources.
- The machine is budget-friendly. If you are looking for the most competitive Plastic scrap grinder machine prices, this is the perfect option.
- As our machine is built with top-notch materials, it offers high-performance grinding, which leads to more efficient plastic recycling.
- Our machine is ideal for a wide range of applications and is suitable for multiple manufacturing businesses.

PRODUCT SPECIFICATIONS

Brand Name	Mechnocraft
Product Name	Plastic Scrap Grinder Machine
Minimum Order Quantity	1
Price	Starting from just* Rs. 50,000/-
Cutter Usage	HDPE, PVC, LDPE, and PET
Application	To cut Plastic into small chips
Model Name/Number/Blade Size	ISPPG 28 inch
Voltage/Type	380V-415V/ Semi-Automatic
Machine Dimensions (LxWxH)mm	1900x1100x1700
Machine Weight Approx.	2400 kg.
Motor Power	40 HP
Grinding Capacity Per Day	2.5 - 3 Ton
Grinder	28 Inch

Hydraulic Power Pack

Mechnocraft's Hydraulic Power Pack is a robust and versatile solution designed to provide the best range of power pack machines for industrial applications. Our hydraulic power pack has a sturdy design and build to offer seamless operation to our clients. Our team has engineered it with high precision and using the best quality materials. Our Hydraulic Power Pack is suitable for a wide range of industries, including construction, railway, petroleum, shipbuilding, and many more. The operating speed and performance of the power pack are checked multiple times using different parameters before its final transmission.

PRODUCT SPECIFICATIONS

Brand Name	Mechnocraft
Product Name	Mechnocraft Hydraulic Power Pack
Minimum Order Quantity	1
Price	Starting from just * Rs. 25,000/-
Application	Suitable for use in garages, residential and commercial parking spaces, and others.
COIL SUPPLY	220 AC
Electric motor	3hp
Power Pack	50 Liters
Pump	9 LPM
Pump Operating Pressure	110 bar
Warranty	1 Year
Country of Origin	India

Hydraulic Parking Lift System

Mechnocraft offers this Hydraulic Car Parking Lift System that is designed by our team of experts keeping in mind international standards. Designed with the use of premium quality components and world-class technology, our car parking lift system is known for its sturdiness and exclusive performance. It is ideal for use in residential as well as commercial complexes and also finds application in other areas, such as government offices, factories, and many more.

PRODUCT SPECIFICATIONS

Brand Name	Mechnocraft
Product Name	Mechnocraft Hydraulic Car Parking Lift System
Minimum Order Quantity	1
Price	Starting from just * Rs. 90,000/-
Lifting Height	2200mm
Total Height	3600mm
Platform Width	2300mm
Outer to Outer Width	2600mm
Length	4100mm
Hydraulic Cylinder Capacity	3 Ton
Electric Motor	3HP
Hydraulic Power Pack	50 LTR.

BELT TYPE CONVEYOR

The Belt type Conveyor from Mechnocraft is one of the most suitable options for businesses looking for mechanized movement of materials in their factories. It is made of top-quality materials, keeping in mind the industrial applications of conveyors. This Belt type conveyor is engineered by our team of professionals who majorly focus on offering top-class performance and smooth operations.

Mechnocraft is one of the top conveyor manufacturers in India and is known for the mechanical strength and uninterrupted performance of its conveyor belts. Our conveyors are competitively priced to provide our clients with the best quality conveyor belts at affordable prices.

PRODUCT SPECIFICATIONS

Brand Name	Mechnocraft
Product Name	BELT TYPE CONVEYOR
Minimum Order Quantity	1
Price	Starting from just * Rs. 40,000/-
Motor	2 HP
Small Roller	L 700 x D 80 mm
Big Roller	L 700 X D 250
Belt	600 mm
Belt Adjustment System	L 300 x W 200 mm
Chakor Bearing	Flange Bearing
Motor Chain Sproket	3 inch
Warranty	1 Year
Country of Origin	India
